International Map Installation Instructions

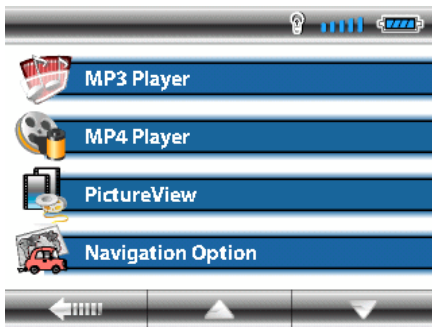

Due to the size of the International maps, it is not possible to load them directly onto your JNC Navig8 device. The international maps must be run off of the SD card supplied with your purchase.

For GPS-578, GPS-580 and GPS-743

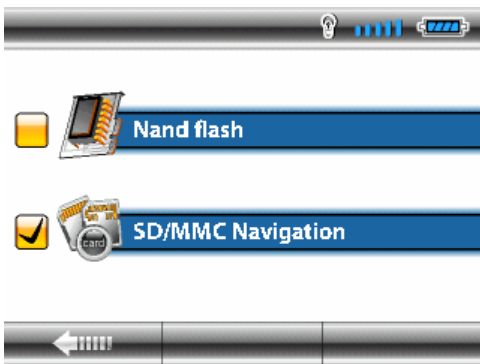

1. Please ensure your JNC Navig8 device is off at the master switch
2. Insert the SD card into your JNC Navig8 device
3. Turn your JNC Navig8 device on
4. Tap "Travel Kit" on the screen below

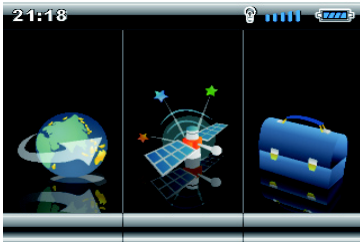

5. The screen below will be displayed, scroll down and tap "Navigation Option"

6. Select SD/MMC Navigation – You will now tell your JNC Navig8 to read the maps on the SD card and not the preloaded internal maps. (In order to read the preloaded maps again, select Nand Flash)

7. Push the back button, until the screen below is displayed

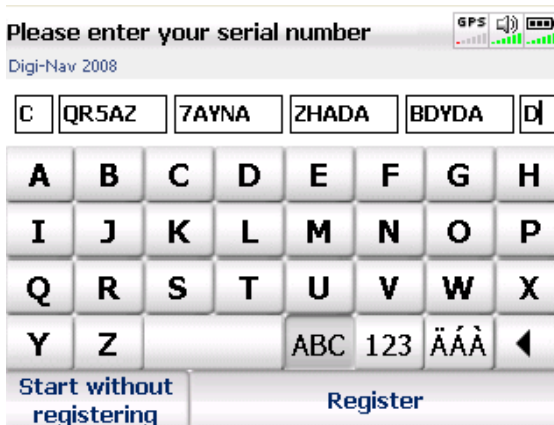

8. Tap the “Navigation” button.

9. Your new International map will open.

10. Your Digi-Nav software offers a 30 day trial period.

11. In order to activate your new Digi-Nav software you will need to:

- Visit www.digi-nav.co.za
- Select “Enter Digi-Nav”.
- Select “Registration”.
- Select “2008”.
- Fill in your personal details
 - *With your International Map purchase will receive a Serial Number. This starts with a C and is 22 characters long.*
- Enter your serial number into the website.
- Enter the same serial number into your JNC Navig8.

- Select “Register”
- Your JNC Navig8 will give you a Reference Number.

Please enter your PIN code GPS [signal] [battery]

Serial No.: **C-QR5AZ-7AYNA-ZHADA-BDYDA-D**
 Reference No.: **HT-KP-XO-TO**

Pincode

Now you need to generate a PIN code. To find out how this is done, please consult the program documentation.
 Enter the PIN code in the relevant field and tap 'OK'.
